OECD Guidelines for Multinational Enterprises: National Contact Point of Switzerland (NCP)

Checklist for the Submission of a Specific Instance

1. Context
Individuals and interest groups may address the NCP if they wish to raise a company behavior, which might be inconsistent with the OECD Guidelines for Multinational Enterprises (OECD Guidelines). The issue should be raised in the country where the potential violation occurred. If this country is not a signatory of the OECD Guidelines and consequently does not have a NCP, the issue should be raised in the country where the multinational company is headquartered.

The Swiss NCP treats potential violations according to its "Information on Specific Instance Procedure" (published on the NCP website). The Swiss NCP accepts submissions in German, French, Italian and English.

For a faster service, please include the information and terminology below.

2. Terminology
The Swiss NCP recommends using the following terminology:

- “Swiss NCP”: Swiss National Contact Point for the OECD Guidelines for Multinational Enterprises
- “OECD Guidelines”: OECD Guidelines for Multinational Enterprises
- “Submitting party”: Person or organization submitting the specific instance
- “Responding party”: Enterprise or organization concerned by the specific instance

3. Issues
